NSC Staff Secretary

FROM: Executive Secretary

SUBJECT: Unclassified Version of Telecommunications  
Policy Memorandum

The draft of the subject memo distributed on 10 October has been reviewed by the DCI Staff, and the following comments are submitted:

a. As stated in my memo of 28 June concerning the earlier version of this statement, it is believed that the intended purpose could be equally well served if certain of the detailed discussion is eliminated in order to make the statement shorter, more concise and less revealing of vulnerabilities. Specific areas to be edited will be conveyed to Col Wayne Kay by [redacted] of the DCI Staff.

b. Prior to finalization of this draft, it is recommended that representatives of the addressees on your 10 October memo be asked to meet to revise the draft in accordance with comments submitted in order that an agreed version will be available for final review by the principals.
